II) – Language : (12 marks)

1 - Fill in the blanks with words from the list . There are two extra words (4marks)

Even / theirs / more / into / by / less / irritants / particularly / respiratory / still

Breathing in someone else's cigarette smoke (passive smoking or secondhand smoking) can increase your risk of cancer and other health problems . When someone smokes a cigarette , the smoke from the burning tip is released into the air . So is the smoke they breathe out . Smoke can stay in the air for up to two and a half hours , even with a window open . It may still be there even if you can't see it or smell it . Passive smoking can damage your body because secondhand smoke contains more than 4000 chemicals , many of which are irritants and toxins . Frequent exposure to people's smoke can increase your risk of lung cancer , heart failure and stroke even if you are non-smoker .

Breathing in secondhand smoke is more harmful for children . They are also much particularly likely to be admitted to hospital for a serious respiratory infection , bronchitis and pneumonia , coughs and middle ear infection which can cause hearing loss . If you are a parent who smokes , it will be hard to explain to your children why they shouldn't start smoking . Try to set an example and quit as well as improving your health and theirs , your children may be less likely to start smoking later in life .

2 – Put the words in brackets in the right Tense or Form : (4 marks)

I hate pollution . It makes me really angry . I think pollution is greed . People don't care about the environment . So , they pollute the air we breathe , to earn a lot of money . Big companies are the (bad) exist . They always pretend they are not polluting our environment and often remind us that they never hesitate to take (prevent) preventing prevention measures for the sake of our nature . Pollution affects all of (we) us . We are unhealthy because of these companies (mature) immature behavior . To save our mother Earth and our (exist) existence , we have to reduce the amount of pollution by saving energy . As for the (decision / make) decision making worldwide ; I hope they will take serious measures when they (meet) will meet next year . If we don't take action now , what kind of world (we / have) will we have for the future generations ?

3 – Circle the correct option : (4 marks)

Our Earth provides us with food , shelter and with most of our requirements . (Therefore / However / due to) , we humans are being (grateful / greedy / considerate) to our Earth by our selfish activities . Smoke and harmful gases from homes , vehicles or industries are suffocating her . We are (pouring / releasing / spoiling) dirty sewages although we know that more than 7 billion humans (besides / along / added) with all plants and animals in this world rely on water for their lives . Despite huge (waste / noise / fumes) by our jumbo population itself , we use loudspeakers for our entertainment and noisy vehicles for our luxury . Harmful gases emitted (by / at / of) industries and vehicles are depleting ozone layer and increasing our exposure to harmful UV rays of sun leading us towards various skin diseases , even cancer . Waste like plastics and other non – (recyclable / recycled / degradable) wastes like insecticides , pesticides , chemical fertilizers highly degrades soil quality . What's more , water pollution (can / may / will) cause the extinction of many aquatic animals .
